AMENDMENTS TO THE DRAWINGS

Applicants hereby submit replacement drawings for Figures 2-12 to include the appropriate sequence identifiers.

REMARKS

In response to the Notification of Defective Response mailed on October 19, 2007, a sequence listing is being submitted herewith to list the sequences present in the specification and figures as filed. Please enter the sequence listing into the application. I hereby state that the Sequence Listing does not include new matter. A copy of the Sequence Listing in computer readable form as required by 37 C.F.R. § 1.821(e) is submitted herewith. As required by 37 C.F.R. § 1.821(f), I hereby state that the copy in computer readable form is identical to the paper copy of the Sequence Listing submitted herewith. Further, the specification and figures have been amended to add sequence identification numbers to each sequence. No new matter has been added by this amendment.

Claims 1, 21, 37, 39 and 40 are amended herein, and new Claims 43-60 are added herein. The amendments are supported by the claims and specification as originally filed. Support may be particularly found at paragraphs 0054 and 0055. No new matter is added by the amendments to the claims.

Claims 2-20, 22-36, 38 and 41-42 are canceled herein without prejudice to, or disclaimer of, the subject matter contained therein. Applicants maintain that the cancellation of a claim makes no admission as to its patentability and reserve the right to pursue the subject matter of the cancelled claim in this or any other patent application.

Upon entry of the amendments, Claims 1, 21, 37, 39, 40 and 43-60 are pending herein.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, Applicant is not conceding in this application that previously pending claims are not patentable over the cited references. Rather, any alterations or characterizations are being made to facilitate expeditious prosecution of this application. Applicant reserves the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history shall not
